## What They Say About SCHOOL OF MEDICINE International Class

Celine Natalie Johnson

MED Class of 2023

Studying in the Medical International (MED-IC) program at Universitas Ciputra has provided me with a highly satisfying learning experience. The comfortable academic environment and excellent facilities, such as advanced laboratories, greatly support our learning process. Especially the supportive lecturers who are always ready to help develop our curiosity and potential. This program also offers numerous opportunities and a double degree program, which strongly support the development of medical skills and open up broader career opportunities. With the learning process delivered in English, we have become more adept at communicating and building connections with lecturers and experts from abroad.

## ABOUT MED

The School of Medicine at Universitas Ciputra upholds the values of Integrity, Professionalism, and Entrepreneurship, enriched with Empathy and Compassion, shaping doctors who are not only skilled but also adaptable, innovative, and socially responsible—qualities essential to meet the evolving demands of healthcare in today's dynamic world. Integrating artificial intelligence (AI) into its curriculum, the program equips students with cutting-edge knowledge and technological expertise to navigate and leverage AI advancements in diagnostics, treatment, and healthcare management. Collaborating with Dr. M. Soewandhie General Hospital and the Surabaya City Health Office, both recognized as beacons of healthcare excellence, the program provides students with invaluable opportunities to learn directly from advanced experts in their fields and gain practical, real-world experience.

## Major EXCELLENCE

Doctors equipped with innovative mindset who excel in preventive medicine (Health Promotion, Specific Protection, Early Diagnosis and Prompt Treatment, Disability Limitation, and Rehabilitation).
